*The MNG applies to Tufts Health One Care members unless a less restrictive LCD or NCD exists.

Senior Products

☐ Tufts Health Plan Senior Care Options (SCO), (a dual-eligible product); Fax 617-673-0956

☐ Tufts Medicare Preferred HMO, (a Medicare Advantage product); Fax 617-673-0956

☐ Tufts Medicare Preferred PPO, (a Medicare Advantage product); Fax 617-673-0956

Note: While you may not be the provider responsible for obtaining prior authorization, as a condition of payment you will need to ensure that prior authorization has been obtained.

Overview

Food and Drug Administration (FDA) - Approved Indications:

Alhemo (concizumab-mtci) is a tissue factor pathway inhibitor (TFPI) antagonist indicated for routine prophylaxis to prevent or reduce the frequency of bleeding episodes in adult and pediatric patients 12 years of age and older with hemophilia A (congenital factor VIII deficiency) with or without factor VIII inhibitors, or hemophilia B (congenital factor IX deficiency) with or without factor IX inhibitors.

Clinical Guideline Coverage Criteria

The plan may authorize coverage of Alhemo for Members when **ALL** of the following criteria are met:

Initial Authorization Criteria

1. Documented diagnosis of hemophilia A or B

AND

2. Documentation for use as prophylaxis to prevent or reduce the frequency of bleeding episodes

AND

3. The patient is at least 12 years of age or older

AND

4. Documentation the patient is with or without inhibitors (hemophilia A: FVIII, hemophilia B: FIX)

AND

5. Prescribed by or in consultation with a hematologist

Reauthorization Criteria

1. Documented diagnosis of hemophilia A or B

AND

2. The patient is at least 12 years of age or older

AND

3. Prescribed by or in consultation with a hematologist

4. Documentation the patient is with or without inhibitors (hemophilia A: FVIII, hemophilia B: FIX)

AND

5. Documentation the Member has experienced a therapeutic response from Alhemo as defined by a reduction in the frequency of bleeds

Limitations

- Coverage of Alhemo will be authorized for 12 months
- Members new to the plan stable on Alhemo should be reviewed against Reauthorization Criteria.

Codes

The following code(s) require prior authorization:

Table 1: HCPCS Codes

HCPCS Codes	Description
J7173	Injection, concizumab-mtci, 0.5 mg

Approval And Revision History

May 13, 2025: Reviewed by Pharmacy and Therapeutics Committee (P&T)

Subsequent endorsement date(s) and changes made:

- October 2025: Administrative update to HCPCs Codes: Added J Code, J7173 to guideline effective 10/1/25.
- May 12, 2026: Updated overview and criteria to indicate that Alhemo can be used in patients with hemophilia A with or without factor VIII inhibitors, or hemophilia B with or without factor IX inhibitors based on expanded labeling. Administrative updates: Template updated to remove CareLink from the Medical Necessity Guideline template. Template updated from “Tufts Health Together – MassHealth MCO Plan and Accountable Care Partnership Plans” to “Tufts Health Together-MassHealth Accountable Care Partnership Plans.” (eff 6/1/26)

Background, Product and Disclaimer Information

Medical Necessity Guidelines are developed to determine coverage for benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. We make coverage decisions using these guidelines, along with the Member’s benefit document, and in coordination with the Member’s physician(s) on a case-by-case basis considering the individual Member's health care needs.

Medical Necessity Guidelines are developed for selected therapeutic or diagnostic services found to be safe and proven effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in our service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. We revise and update Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Medical Necessity Guideline and a self-insured Member’s benefit document, the provisions of the benefit document will govern. For Tufts Health Together (Medicaid), coverage may be available beyond these guidelines for pediatric members under age 21 under the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefits of the plan in accordance with 130 CMR 450.140 and 130 CMR 447.000, and with prior authorization.

Treating providers are solely responsible for the medical advice and treatment of Members. The use of this guideline is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to eligibility and benefits on the date of service, coordination of benefits, referral/authorization, utilization management guidelines when applicable, and adherence to plan policies, plan procedures, and claims editing logic.
