Medical Necessity Guidelines: **Removal of Benign Skin Lesions**

Effective: October 1, 2026

Prior Authorization Required If REQUIRED, submit supporting clinical documentation (electronically recommended or by fax)	Yes ☐ No ☒
Notification Required	Yes ☐ No ☒

Applies to:

- Harvard Pilgrim Health Care Commercial products
- Tufts Health Plan Commercial products
- Tufts Health Direct

We recommend submitting prior authorization electronically. If you opt to submit prior authorization requests via fax, please refer to this reference chart for the appropriate fax number (varies by product).
For details on all our products, please visit the Our Plans page on our provider website. For additional Prior Authorization and Notification details on other lines of business not listed on our Medical Necessity Guidelines page, please also reference our Prior Authorization Resources page.

Note: While you may not be the provider responsible for obtaining prior authorization or notifying Point32Health, as a condition of payment you will need to ensure that any necessary prior authorization has been obtained and/or Point32Health has received proper notification. If notification is required, providers may additionally be required to provide updated clinical information to qualify for continued service.

Overview

Skin lesions are areas of skin that differ from the skin around them. They may occur as a result of an injury or damage to the skin and are often noncancerous (benign) but may also be a sign of underlying conditions such as infections or autoimmune diseases. Symptoms of skin lesions may include abnormal growth, itchiness, swelling, pain, or change in color.

Clinical Guideline Coverage Criteria

The Plan considers the removal of benign skin lesions as reasonable and medically necessary when documentation confirms **ONE** of the following signs or symptoms:

1. The lesion presents with **ONE** of the following:
    a. Bleeding; **or**
    b. Intense itching; **or**
    c. Pain; **or**
    d. Change in physical appearance, **ONE**:
        i. Reddening; **or**
        ii. Pigmentary change; **or**
        iii. Enlargement; **or**
        iv. Increase in the number of lesions
2. The lesion has physical evidence of inflammation (purulence, edema, erythema, etc.); **or**
3. The lesion obstructs an orifice; **or**
4. The lesion clinically restricts vision, **ONE:**
    a. Lesion restricts eyelid function; **or**
    b. Lesion causes misdirection of eyelashes or eyelid; **or**

c. Lesion restricts lacrimal puncta and interferes with tar flow; **or**
d. Lesion touches globe; **or**
e. Lesion clinically restricts eye function.

The Plan considers the removal of warts as reasonable and medically necessary when documentation confirms **ONE** of the following signs or symptoms:

1. Periocular warts associated with chronic recurrent conjunctivitis secondary to lesion virus shedding; **or**
2. Warts showing evidence of spreading from one body area to another; **or**
3. Lesions are condyloma acuminata or molluscum contagium; **or**
4. Cervical dysplasia or pregnancy associated with genital warts.

Limitations

The Plan considers removal of skin lesions as not medically necessary for appearance or personal preference.

Codes

The following code(s) is associated with this service:

Table 1: CPT/HCPCS Codes

***The following CPT codes are considered medically necessary when submitted with the appropriate ICD-10 Code for HPHC Commercial only**

Code	Description
11400	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter 0.5 cm or less
11401	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter 0.6 to 1.0 cm
11402	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter 1.1 to 2.0 cm
11403	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter 2.1 to 3.0 cm
11404	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter 3.1 to 4.0 cm
11406	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter over 4.0 cm
11420	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), scalp, neck, hands, feet, genitalia; excised diameter 0.5 cm or less
11421	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), scalp, neck, hands, feet, genitalia; excised diameter 0.6 to 1.0 cm
11422	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), scalp, neck, hands, feet, genitalia; excised diameter 1.1 to 2.0 cm
11423	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), scalp, neck, hands, feet, genitalia; excised diameter 2.1 to 3.0 cm
11424	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), scalp, neck, hands, feet, genitalia; excised diameter 3.1 to 4.0 cm
11426	Excision, benign lesion including margins, except skin tag (unless listed elsewhere), scalp, neck, hands, feet, genitalia; excised diameter over 4.0 cm
11440	Excision, other benign lesion including margins, except skin tag (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter 0.5 cm or less
11441	Excision, other benign lesion including margins, except skin tag (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter 0.6 to 1.0 cm
11442	Excision, other benign lesion including margins, except skin tag (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter 1.1 to 2.0 cm

Code	Description
11443	Excision, other benign lesion including margins, except skin tag (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter 2.1 to 3.0 cm
11444	Excision, other benign lesion including margins, except skin tag (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter 3.1 to 4.0 cm
11446	Excision, other benign lesion including margins, except skin tag (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter over 4.0 cm

List of Medically Necessary ICD-10 Codes

Table 2: CPT/HCPCS Codes

***The following CPT codes are considered medically necessary when submitted with the appropriate ICD-10 Code for HPHC Commercial, THP Commercial, and THP Direct Products:**

Code	Description
17000	Destruction (eg, laser surgery, electrosurgery, cryosurgery, chemosurgery, surgical curettement), premalignant lesions (eg, actinic keratoses); first lesion
17003	Destruction (eg, laser surgery, electrosurgery, cryosurgery, chemosurgery, surgical curettement), premalignant lesions (eg, actinic keratoses); second through 14 lesions, each (List separately in addition to code for first lesion)
17004	Destruction (eg, laser surgery, electrosurgery, cryosurgery, chemosurgery, surgical curettement), premalignant lesions (eg, actinic keratoses), 15 or more lesions
17110	Destruction (eg, laser surgery, electrosurgery, cryosurgery, chemosurgery, surgical curettement), of benign lesions other than skin tags or cutaneous vascular proliferative lesions; up to 14 lesions
17111	Destruction (eg, laser surgery, electrosurgery, cryosurgery, chemosurgery, surgical curettement), of benign lesions other than skin tags or cutaneous vascular proliferative lesions; 15 or more lesions

Approval And Revision History

April 19, 2023: Reviewed by the Medical Policy Approval Committee (MPAC), new MNG created outlining coverage for the removal of benign skin lesions.

Subsequent endorsement date(s) and changes made:

- December 2023: Rebranded Unify to One Care effective January 1, 2024
- March 20, 2024:Reviewed by MPAC and renewed without changes effective May 1, 2024
- December 18. 2024: Reviewed by MPAC; THP Commercial and THP Direct added as applicable Lines of Business, criteria updated regarding the removal of benign skin lesions, codes 17000, 17003, 17004, 17110, and 17111 added and will be considered medically necessary when submitted with the appropriate ICD-10 code linked in the coding section, effective March 1, 2025
- April 16, 2025: Reviewed by MPAC, renewed without changes effective May 16, 2025
- May 20, 2026: Reviewed by MPAC, annual review; coding 11400-11446 added to the guideline to be considered medically necessary when submitted with an appropriate ICD-10 code; administrative update to the guideline template, effective October 1, 2026

Background, Product and Disclaimer Information

Medical Necessity Guidelines are developed to determine coverage for benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. We make coverage decisions using these guidelines, along with the Member's benefit document, and in coordination with the Member's physician(s) on a case-by-case basis considering the individual Member's health care needs.

Medical Necessity Guidelines are developed for selected therapeutic or diagnostic services found to be safe and proven effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in our service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. We revise and update Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Medical Necessity Guideline and a self-insured Member's benefit document, the provisions of the benefit document will govern. For Tufts Health Together (Medicaid), coverage may be available beyond these guidelines for pediatric members under age 21 under the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefits of the plan in accordance with 130 CMR 450.140 and 130 CMR 447.000, and with prior authorization.

Treating providers are solely responsible for the medical advice and treatment of Members. The use of this guideline is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to eligibility and benefits on the date of service, coordination of benefits, referral/authorization, utilization management guidelines when applicable, and adherence to plan policies, plan procedures, and claims editing logic.
